

POLICY STATEMENT

SCOPE Maintenance, repairs, and upgrades of industrial gas turbines, education and training, consultancy, and spare parts supply.

CORPORATE SOCIAL RESPONSIBILITY Our organization:

1. Account for our impacts on society, the economy and the environment;
2. Is transparent about decisions and activities that have an impact on the environment;
3. Behaves ethically;
4. Respects and responds to the interests of all stakeholders;
5. Respects applicable laws and regulations;
6. Respects international standards of conduct;
7. Respects and acknowledges universal human rights.

The system complies with ISO 26000.

VBR Turbine Partners has chosen TRACE to perform due diligence on our organisation in order to ensure our compliance with our mission statement. TRACE is a globally recognized anti-bribery business organisation and leading provider of third party risk management solutions.

QUALITY Our policy on quality is based on the following goals:

1. The customers specified requirements regarding our products and services are met;
2. It is our objective to have knowledge of requirements that are:-not specified, but are necessary for the intended use.-Arising from laws and regulations applicable to our products and services. These requirements are respected and applied by us;
3. We use a quality assurance system to ensure that all requirements are fulfilled before the products and services are transferred to the customer;
4. All activities related to quality are aimed at increasing customer satisfaction and protecting the interests of all stakeholders.

The management system is certified in accordance with ISO 9001.

For manufacturing, maintenance, repair, and overhaul, our quality management system complies with EN-IEC-ISO 80079-34.

HEALTH AND SAFETY Our policy on working conditions is based on the following goals:

1. Personal injury and omission, with a causal link to our work, is prevented;
2. We strive to minimize absenteeism, the policy is aimed at an early resumption of work;
3. Material damage caused by our work is prevented;
4. Applicable laws and regulations are respected and complied with;
5. Employees or their representatives are involved in the safety and health policy through consultation and participation in accordance with legislation.

The management system certified in accordance with ISO 45001.

ENVIRONMENT Our environmental policy is based on the following goals:

1. Reducing energy consumption at our facility;
2. Reducing waste;
3. Prevent spoils and other environmental incidents;
4. We respect and comply with laws and regulations relating to the environment.

The environmental management system is fully integrated in our total QSHE management system and meets the requirements of ISO 14001. However because of the low environmental risks the system is not certified by an accredited certification body.

INFORMATION SECURITY Information security focuses on the following aspects of information provision:

1. availability, the information must be available at the desired moments;
2. integrity, the information must be correct and complete and the information systems must store and process correct and complete information;
3. confidentiality, the information must be accessible only to those who are authorized to access it;
4. Applicable requirements, including those of customers and information security laws and regulations, are respected and complied with.

The Information Security management system is fully integrated in our total QSHE management system according to the requirements of ISO 27001. However, certification by an accredited certification body is expected end of 2024.

CUSTOMS Concerning import and export of goods and dual-use goods:

1. We are recognized as Authorized Economic Operator. This gives VBR a preferential position with the customs authorities.
2. We treat these goods compliant to all EU export control laws and regulations and if required we comply with US Export regulation as well.

CONTINUOUS IMPROVEMENT We strive to continuously improve the efficiency and results of our total QSHE management system.
